

# Narayana Suri

## Software Engineer

**Phone** +91 8056028752

**LinkedIn** [linkedin.com/in/narayanasuri/](https://www.linkedin.com/in/narayanasuri/)

**E-mail** [narayanasuri@outlook.com](mailto:narayanasuri@outlook.com)

**GitHub** [github.com/narayanasuri](https://github.com/narayanasuri)

Energetic and passionate software engineering graduate with two years of experience developing neat and robust code. Over the four years that I have been into development, I have participated in multiple codefests and hackathons which expanded my spectrum of knowledge and made me considerate of the intricacies involved in developing.

## Experience

**2018 – Present**

**Software Developer**

*Ernst & Young LLP, India*

- Structure several internal tools/consoles as well as design custom REST APIs built in NodeJS and Django. Also helped pilot automation projects using UIPath to minimize task load and improve delivery time.
- Developed several interactive security posture dashboards catering to clients from various sectors including FMCG, IT, Banking and Media. Also developed an application providing a geographical overview highlighting live threat attacks using socket programming
- Performed real-time monitoring and incident response using Splunk, QRadar.

## Education

**2014 – 2018**

**B.Tech – Software Engineering, SRM University, Chennai**

- 7.3 GPA
- Relevant Coursework : Software Project Management, Web and Android Design

**2002 – 2014**

**I – XII (CBSE), P.S Senior Secondary School, Chennai**

- XII – 82%
- X – 8.4 GPA

## Skills

Programming (Java, Javascript, Python)

Android Development

Data Structures and Algorithms

Splunk, QRadar and ArcSight

Front-End Development (React JS)

Back-End Development (Node JS, Django)

Databases (MySQL, MongoDB)

Version Control - Git
